JettaWarm is a surface heating system secured beneath the acrylic in a blanket of insulation to provides gentle warmth on the back rest of your tub before your bath begins.

Activates in minutes, bathers can relax from the moment they enter the tub. Soaker tubs have full backrest coverage, while a whirlpool or combo has a system designed to wrap around the hydrotherapy features and warm the acrylic where you need it.

JETTACORP.COM

Jetta guarantees that the water temperature in our insulated whirlpool baths will stay within 2 degrees of its original fill temperature for 30 minutes of use without an inline heater.
